

Meet the Teachers

Ms. Tammi

I was born and raised in Colorado Springs, CO. My dad was an engineer, my mom was an elementary school librarian, teacher's assistant, and special education teacher. I married into the military and had two children. My son was born at the Air Force Academy. My daughter was born at the naval hospital in Guam. I started working with children while I was still a child myself. I assisted my mom with library duties whenever possible and started helping other teachers after school and during summer school. I started babysitting when I was 12 and took child care classes in junior high and high school. I then worked in church nurseries and volunteered in elementary schools. I officially started teaching 18 years ago when my daughter started preschool. Working with children is all I have ever wanted to do. I am very excited to meet the milestone of teaching for 20 years! Please feel free to contact me if you have any questions or concerns.

Ms. Angeleigh

I was born in Cheyenne, but moved to Florida when I was 6 and to Colorado when I was 8. I lived in Thornton, CO. until I graduated from high school, then moved back to Cheyenne with my parents to help take care of my ill grandparents. I met and married my best friend, Adam, while attending LCCC. We just celebrated our 25th wedding anniversary in February! We have three boys. Our oldest son is 25, our middle son is 21, and our baby boy is 14 and just started high school this year. I have always loved being around children. I started babysitting when I was 12. I started assistant teaching in an early childhood school 26 years ago. I have been a teacher in an early childhood setting off and on for 18 years. I took time off to raise my own children, and when they were old enough, I went back to teaching. This past year I thought maybe I was supposed to take a different career path, but I missed teaching too much, so I came back to teach here at The Neighborhood School. I am so excited to be here and get back to what I love... teaching! Please feel free to contact me any time if you have questions or concerns.
